

OVERVIEW

The study was conducted for CNN via telephone by SSRS, an independent research company. Interviews were conducted from **August 12-15, 2020** among a sample of **1,108** respondents. The landline total respondents were **386** and there were **722** cell phone respondents. The margin of sampling error for total respondents is +/- **3.7** at the 95% confidence level. The design effect is **1.62**. More information about SSRS can be obtained by visiting www.ssrs.com. Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

NOTE ABOUT CROSTABS

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

**EMBARGOED FOR RELEASE:
Sunday, August 16 at 8:00 p.m.**

(Respondents who are registered to vote, N=987)

P1. Suppose that the presidential election were being held today and you had to choose between Joe Biden and Kamala Harris as the Democratic Party's candidates, and Donald Trump and Mike Pence as the Republican Party's candidates. Who would you be more likely to vote for?

P1a. As of today, do you lean more toward...

[NAMES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]

P1/P1A COMBO TABLE

	Joe Biden and Kamala Harris, the Democrats	Donald Trump and Mike Pence, the Republicans	Other (vol.)	Neither (vol.)	No opinion
August 12-15, 2020	50%	46%	1%	2%	2%
June 2-5, 2020**	55%	41%	1%	2%	2%
May 7-10, 2020**	51%	46%	1%	1%	1%
April 3-6, 2020**	53%	42%	*	2%	3%

**QUESTION WORDING (P1): Suppose that the presidential election were being held today and you had to choose between Joe Biden as the Democratic Party's candidate, and Donald Trump as the Republican Party's candidate. Who would you be more likely to vote for?

COMPARE TO:

If Joe Biden were the Democratic Party's candidate and Donald Trump were the Republican Party's candidate, for whom would you be more likely to vote? **[RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

	Joe Biden	Donald Trump	Other (vol.)	Neither (vol.)	No opinion
Mar. 4-7, 2020	53%	43%	*	1%	2%
Jan. 16-19, 2020	53%	44%	*	1%	1%
Dec. 12-15, 2019	49%	44%	1%	3%	3%

MORE ON METHODOLOGY

A total of **1,108** adults, including an oversample of **305** adults living in 15 battleground states (Arizona, Florida, Georgia, Iowa, Maine, Michigan, Minnesota, Nevada, New Hampshire, New Mexico, North Carolina, Ohio, Pennsylvania, Texas, and Wisconsin) were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Oversampled states have been weighted to represent their proper share of the adult population. Interviews were conducted in English and Spanish. Among the entire sample, **31%** described themselves as Democrats, **27%** described themselves as Republicans, and **42%** described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.7 percentage points. For the sample of 987 registered voters, it is +/- 4.0 percentage points. For the subset of 636 adults living in the 15 battleground states, it is +/- 5.0 percentage points.

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.
